

TORNEIO:

INSTRUCTIONS FOR INNOVATION TOURNAMENT PARTICIPANTS

[HTTPS://TORNEIO.INSEAD.EDU/](https://torneio.insead.edu/)

TORNEIO TEAM

OVERVIEW OF INNOVATION TOURNAMENTS IN TORNEIO

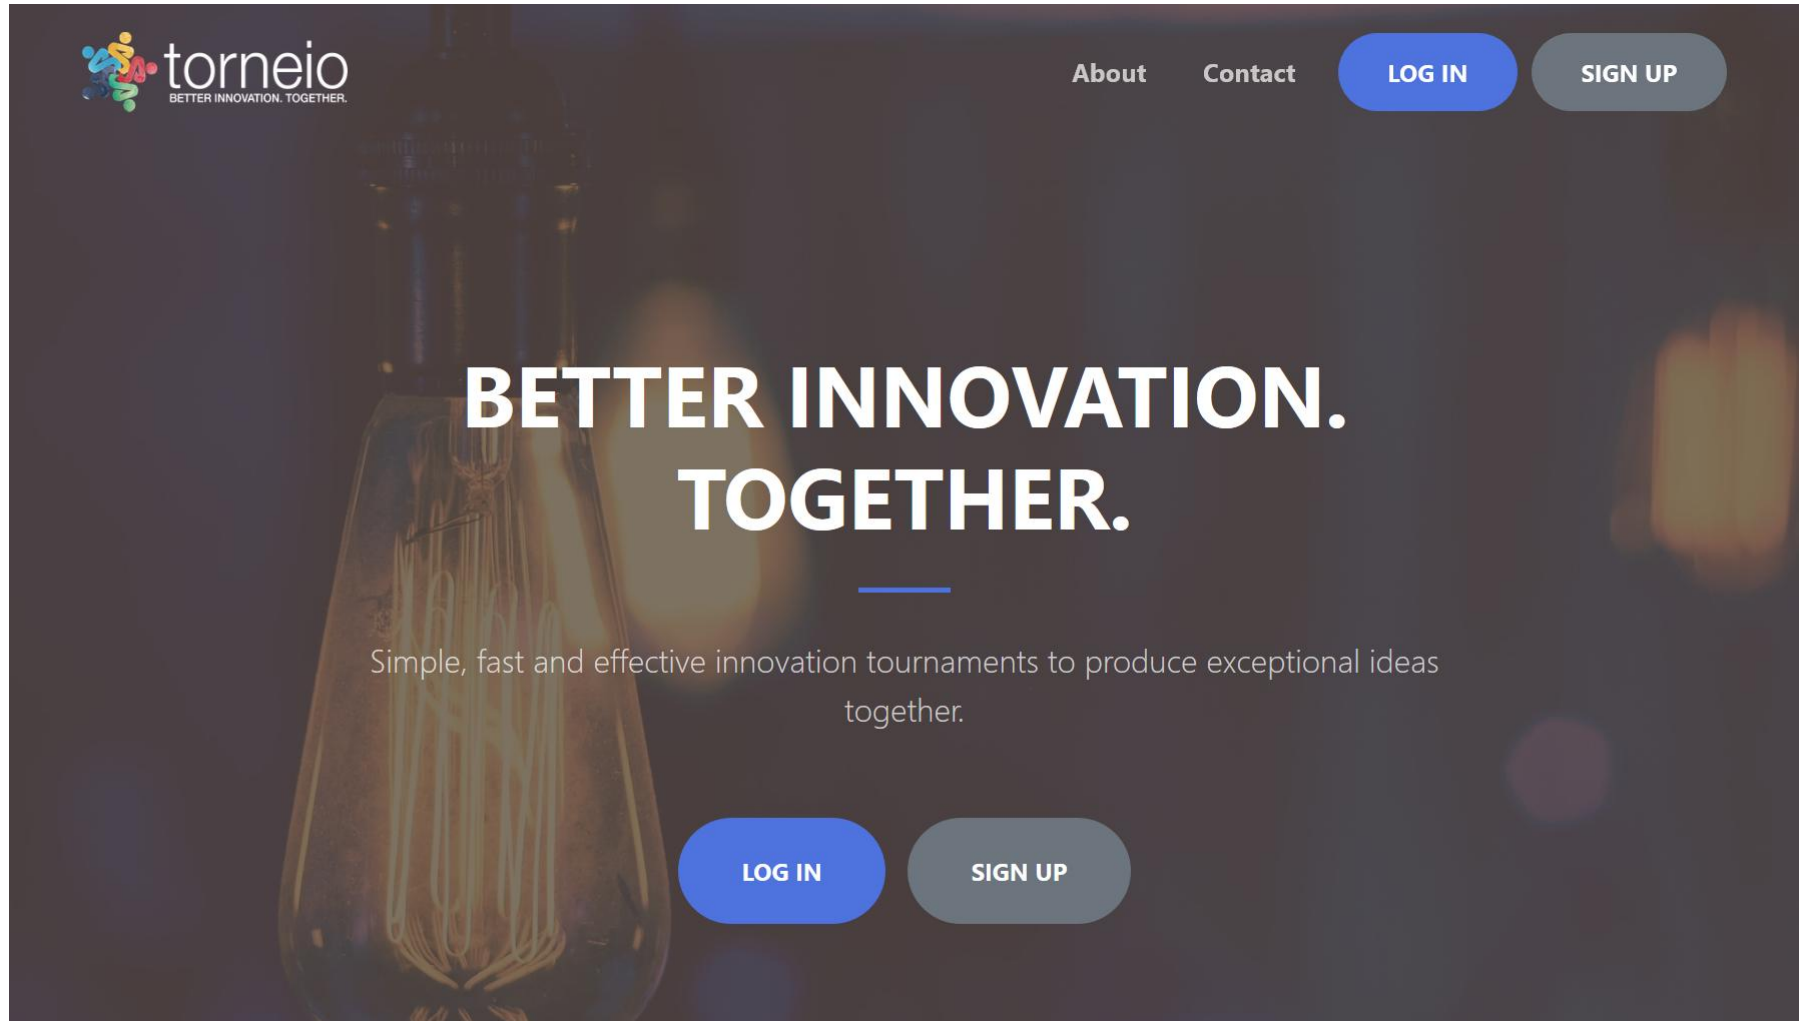

- ▶ An *innovation tournament* is a systematic approach to drive innovation by applying the evolutionary principle of survival of the fittest. The goal of an innovation tournament is to improve the odds of eliciting great opportunities for further development by organizations in the pursuit of effective and innovative impact. It is a structured process which helps channel the knowledge, creativity, and inspiration of innovators who participate in the tournament.
- ▶ An innovation tournament acknowledges that the development of big innovations is more of a '*search*' process rather than an '*analysis*' process in its early stages.
- ▶ Participants in the tournament are called 'innovators'
- ▶ torneio is a web-based tool which enables the following key phases in the search:
 - ▶ *Submission*: innovators enter ideas for innovative opportunities
 - ▶ *Evaluation*: innovators give feedback on each others ideas in an anonymous way
 - ▶ *Reporting*: allows innovators to see the feedback on their ideas
- ▶ This document is a user manual for innovaton tournament participants.
- ▶ An innovation tournament needs a facilitator. If you would like to learn about facilitation services for business model innovation or how to set up an innovation tournament to help spark innovation in your organization, email contact@torneio.org.

TECHNICAL SPECIFICATIONS FOR TORNEIO

- ▶ *Torneio has been tested on:*
 - ▶ *Chrome for Windows*
 - ▶ *Firefox on Windows*
 - ▶ *Microsoft Edge on Windows*
 - ▶ *Safari on iPhones/iPads*

- ▶ *We suggest keeping your browser updated*
 - ▶ *Internet explorer is not supported.*

- Create an account on the torneio system and validate email address
- Enter the token in class to allow interaction in the tournament
- Submit at least 6 ideas for the tournament

CREATING A TORNEIO ACCOUNT AND JOINING A TOURNAMENT

Step 1: Go to <https://torneio.insead.edu/> and click 'sign up'

Step 2: create an account (You must *confirm* your torneio account using the email sent to the email address you enter to be able to log in and out of torneio)

Step 3: Enter tournament token for tournament, and then click 'Join'

DASHBOARD AND SUBMITTING IDEAS FOR AN ACTIVE TOURNAMENT

Step 4: Select a tournament to view its dashboard and options for interacting.

Step 5: Select 'Submit an idea' to begin submitting ideas to the tournament.

Step 6: Enter a catchy title and summary for each idea, then click 'Submit Idea'. Do this several times, once per each idea submitted.

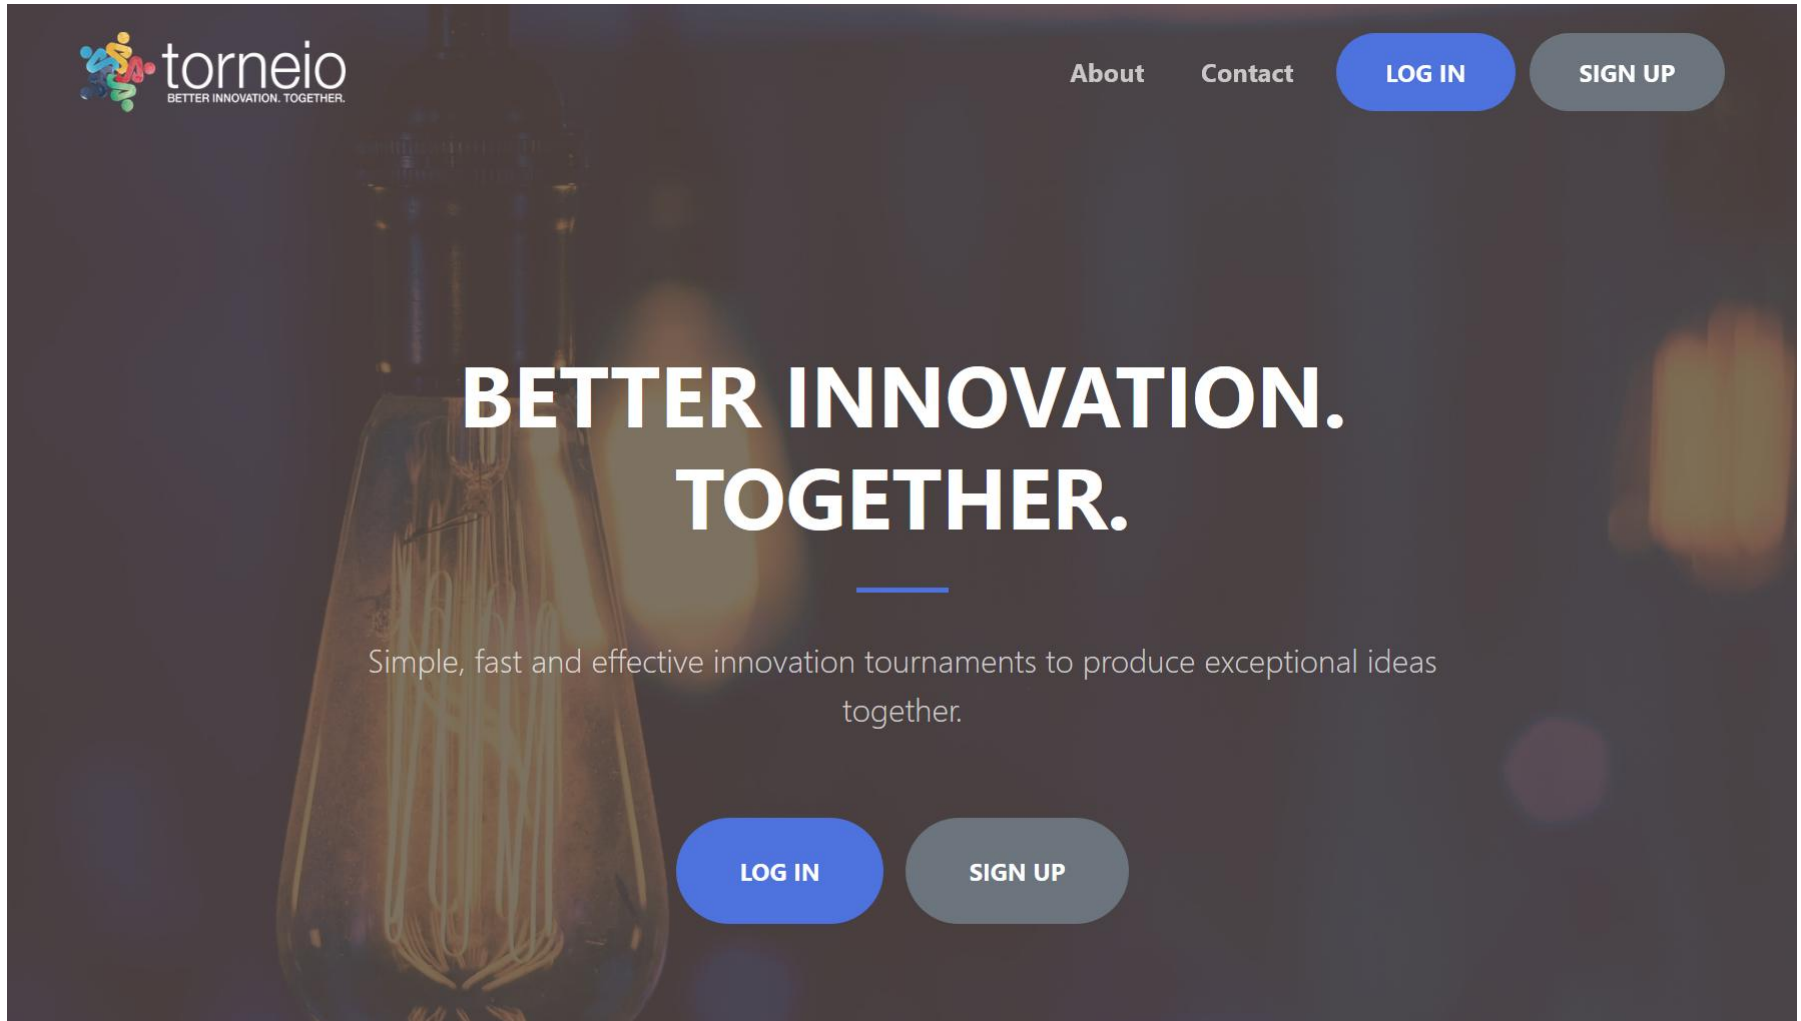

IDEA DESCRIPTION

The description of each business opportunity should contain:

- ▶ **A title of the business opportunity.** Example: Improving ambulance services in India
- ▶ **A brief and to-the-point overview of the business and the problem you are solving.** Example: Ambulance owners and patients in India will use a solution that aggregates, coordinates, and dispatches ambulances because existing fragmented ambulance systems cause long wait times, suffering, and lost revenue.
- ▶ **A demand-side argument of why this business could be a good idea.** Example: There is no 911-type service in India. Medical transportation is provided by a disjoint set of providers, each with its own number and prices. As a result, ambulance wait times in major Indian cities are measured in hours.
- ▶ **A supply-side argument for why the demand could be fulfilled by the business.** Example: The development of a platform app to match ambulances is simple, and some ambulance owners are looking for demand management support.
- ▶ **Some hint of a “secret sauce”, i.e., why you think this could be an excellent opportunity for your team, .** Example: Existing Indian medical transportation providers are too busy competing and managing their assets to coordinate dispatch. Hence, there is a market gap. Digital 4G connectivity is coming online to support this now. I know several tech developers for implementation, and connections to hospitals.

Note: this example was adapted from StanPlus (now Red.Health, <https://www.red.health/>).

When ideating, do not self-censor. You do not care about the quality of your average idea – only of your best idea. Variance is important.

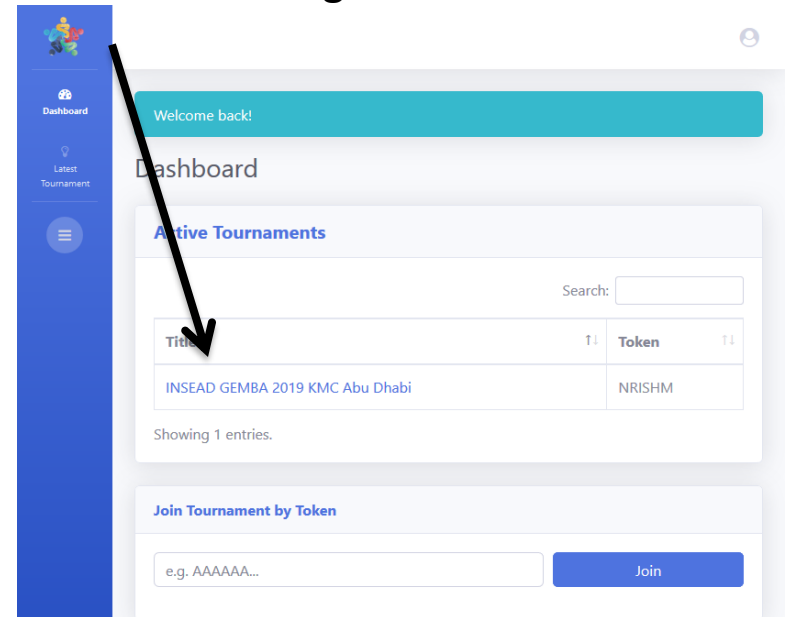

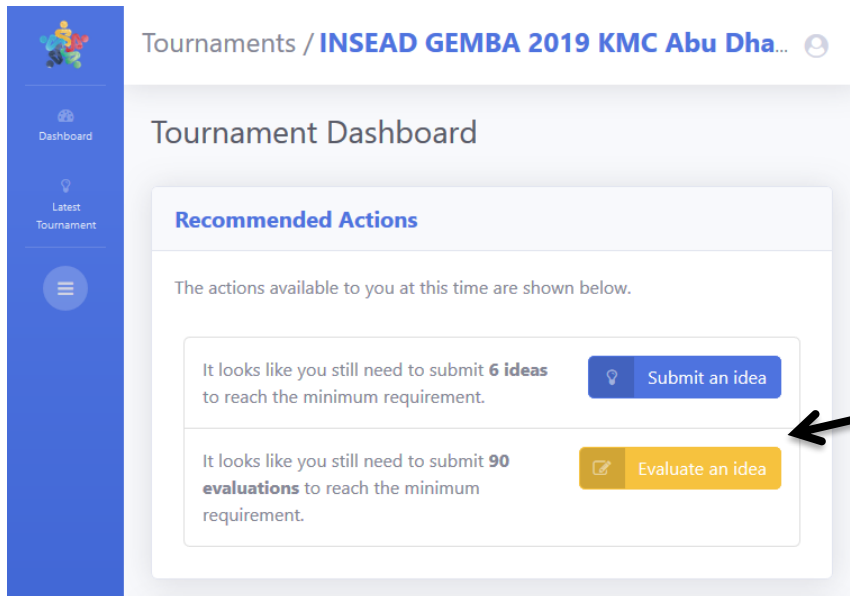

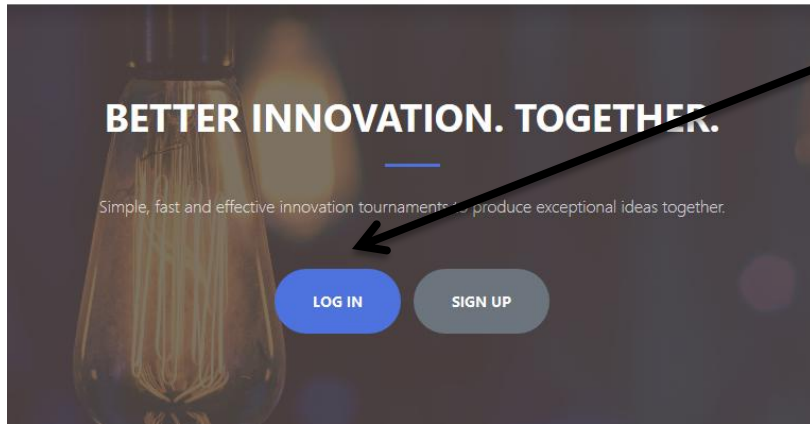

- Log in to the torneio system with the torneio instructions
- Select the tournament for the class
- Evaluate at least 90 ideas (at least 15x the number you entered)

LOG IN TO TORNEIO AND ENTER EVALUATION MODE

Step 1: Go to <https://torneio.insead.edu/> and log in with your account

Step 2: Select a tournament to view its dashboard and options for interacting.

Step 3: click the 'evaluate an idea' button to enter evaluation mode.

EVALUATION OF AN IDEA

Step 4: After entering evaluation mode, scroll the slider to score the idea, with 0 being low priority and 10 being great/high priority

Idea Evaluation

here is a new idea!

This is the description of this new idea to solve X. People like Y can benefit from this idea. If we solve the problem we could expect Z. Our new approach compared to alternative W is that we ABC.

Rate the quality of this idea. Should we pursue this idea further? (0 = No way, this is a bad idea! 10 = Yes, this is an awesome idea!)

6

Comment

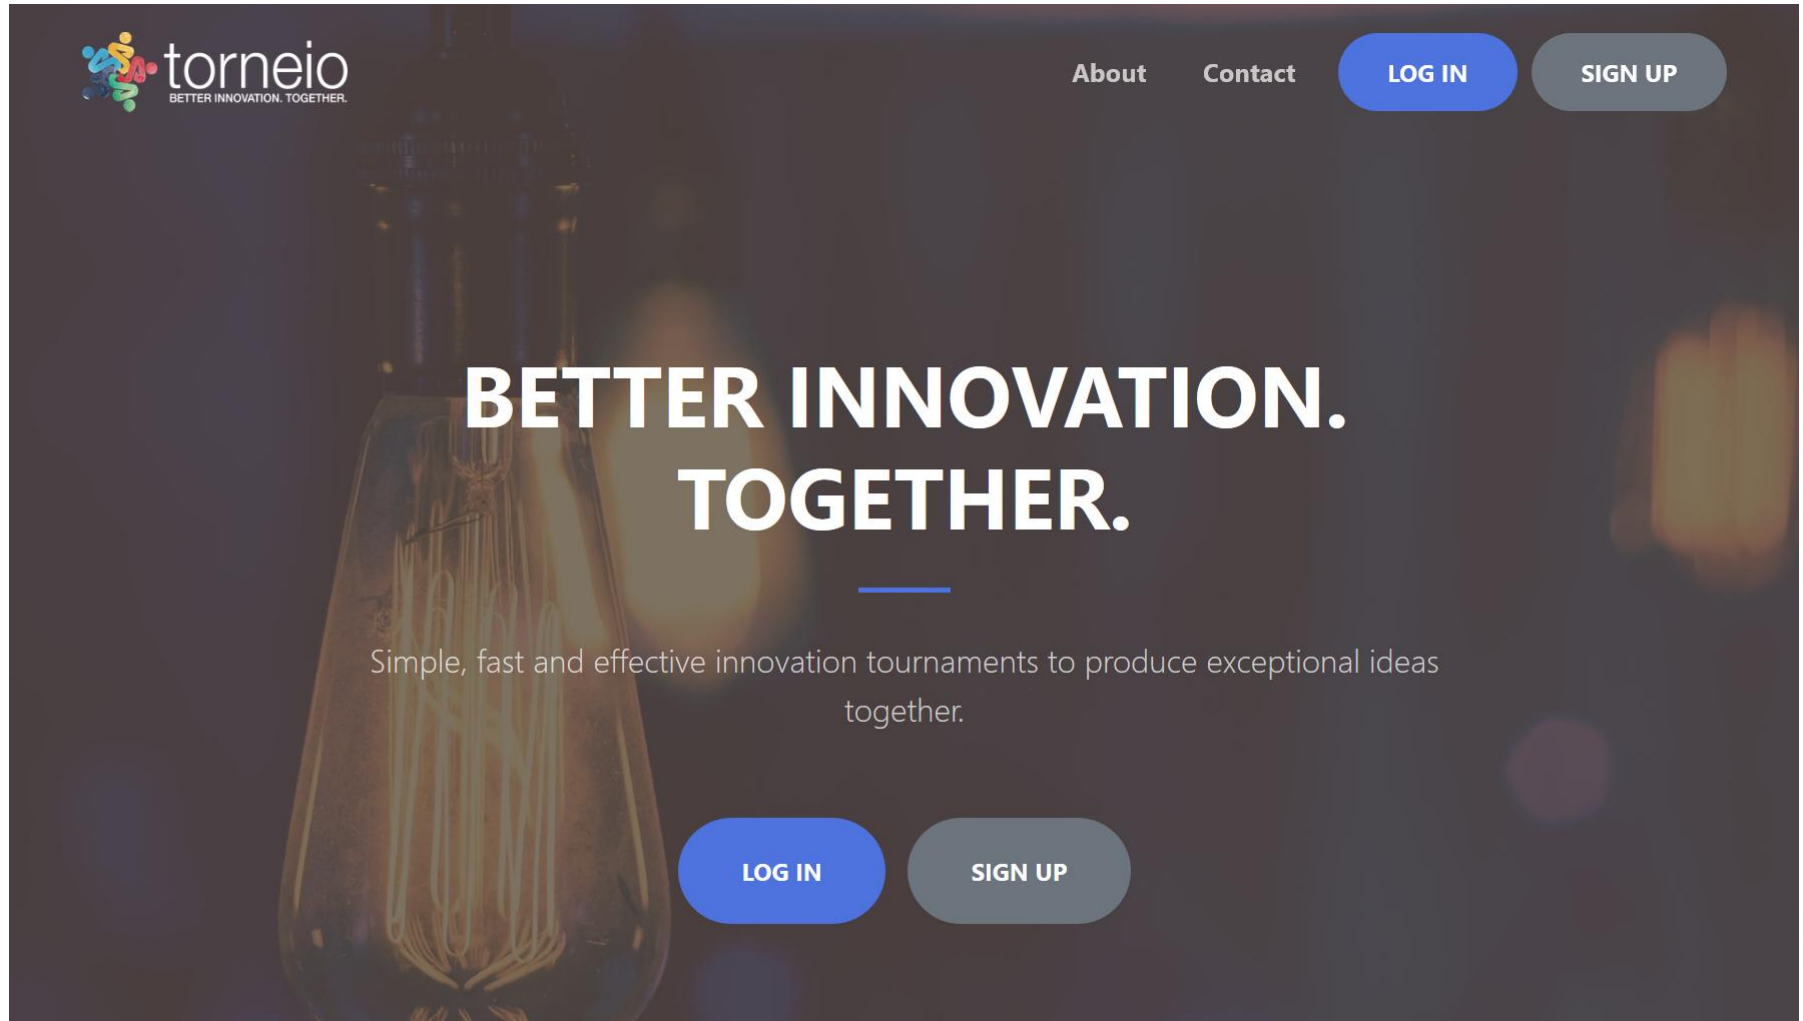

Any comments on the idea...

Submit Evaluation

Step 5 (optional): Enter a short constructive, informative feedback (optional)

Step 6: Click submit to confirm the evaluation to torneio.

TORNEIO — REVIEW FEEDBACK

- Log in to the torneio system with the torneio instructions
- Select the tournament for the class
- Review the feedback you have received

REVIEW FEEDBACK (Applicable only after 'Review mode' is enabled)

Tournament Dashboard

Recommended Actions

The actions available to you at this time are shown below.

It looks like you still need to submit **64 evaluations** to reach the minimum requirement.

 Evaluate an idea

The tournament is done! Check out your results below.

 View idea report

Step 1: After logging in and selecting the idea tournament dashboard, select 'View idea report'.

Step 2: Enter From the list of ideas you entered, you can sort by average score, and can select an idea to review the feedback it received.
